Reason for contact:

Ms. Edberg had contacted Priscilla Stotts 8/5/08 about Stream Team issues wanted information about Brush Creek, Dry Creek and Meramec River. She then made a comment about kids swimming in the creek. I called her to find out which stream and where the kids were swimming. This was my second attempt to reach her.

Comments:

Ms. Edberg was referring to Brush Creek and stated people swim at Highways 19 and CC. They both cross Brush Creek. She added that people also hunt, fish and wade. As noted above, this is the Class P segment of Brush Creek and already has WBCR. Recommend SCR be assigned.
